### 3. WHAT IS CORRUPTION?

3.1. **Corruption** may be "active" or "passive." Both are strictly prohibited.

3.1.1. Active corruption is giving, offering, promising, or authorizing the giving of **Anything of Value** (even of small value) to anyone, including but not limited to

*Printed copies are for reference only. Please refer to electronic copies for the latest version.*

**Government Employees or Officials**, with a corrupt intent, in order to obtain a business advantage for **DaVita**. Examples of a business advantage are the award of a tender, a contract with a payor, the approval of a license, the referral of patients, or a good result on a tax audit.

3.1.2. Passive corruption is asking for, accepting, or receiving **Anything of Value** (even of small value) from anyone in exchange for favouring them in their business with DaVita – for example, accepting money from a potential vendor in exchange for selecting that vendor instead of another, or accepting money from a patient in exchange for giving that patient a better shift.

**3.2.** Corruption may also be “direct” or “indirect.” Both are strictly prohibited.

3.2.1. Direct corruption is when **Anything of Value** (even of small value) is given, offered, promised, or authorized to be given directly to the ultimate recipient – for example, directly to a **Government Employee or Official** or **Referral Source** – with a corrupt intent.

3.2.2. Indirect corruption is when **Anything of Value** (even of small value) is given, offered, promised, or authorized to be given not directly, but rather through someone else—for example, if the thing of value is given to an associate or relative of the ultimate recipient, or given through a **Third Party**.

**3.3.** Credible and Imminent Threat of Physical Harm or Injury

3.3.1. **DaVita** requires **Teammates, Contractors** and **Third Parties** to refuse all solicitations or requests for **Anything of Value** that are inconsistent with this Policy. However, there may be very rare cases where refusing the request would put a **Teammate** or another person at credible, imminent risk of physical harm. (For example, at a time of civil unrest, an armed official at a road block threatens to shoot a **Teammate** unless he **Teammate** pays a bribe to pass the road block.) In such an exceptional case, it is acceptable under this policy to agree to the request, strictly in order to prevent imminent physical harm to a **Teammate** or others. If this happens, the transaction must be:

- Reported to the **Local Compliance Lead** or other member of International **Team Quest** as soon as possible; and
- Accurately recorded and reported in accordance with **DaVita’s** accounting policies.

#### 4. WHAT ARE DAVITA'S OBLIGATIONS REGARDING ITS BOOKS AND RECORDS AND INTERNAL CONTROLS?

4.1. We have an obligation to make and keep books, records, and accounts, which, in reasonable detail, accurately and fairly reflect all **DaVita** transactions and dispositions of assets. Therefore, **Teammates** must help ensure that our financial books and records and all other business records are true and accurate.

4.2. We have an obligation to devise and maintain a system of internal controls sufficient to provide reasonable assurances that:

- All transactions are executed with management's general or specific authorization; and
- Transactions are recorded as necessary to permit preparation of financial statements in conformity with generally accepted accounting principles or any other criteria applicable to such statements and to maintain accountability for assets.

Therefore, **Teammates** may not:

- Falsify or improperly alter information in any record, report or other document; or
- Fail to disclose or record payments, funds, or accounts.

4.3. We have an obligation to maintain policies and procedures to ensure proper internal authorization and approvals for all expenditures, **Business Courtesies**, and any other payments. These policies may be created by **Team Quest**, Finance or **People Services**. We expect **Teammates**, including **Contract Teammates** (and **Third Parties**, as relevant) to know, understand and follow the policies that apply to them.

#### 5. ROLES AND RESPONSIBILITIES

5.1. All **Teammates** (including **Contract Teammates**) and **Third Parties** are responsible for ensuring full compliance with this Policy.

5.2. All **Teammates** (including **Contract Teammates**) and **Third Parties** must promptly report any suspected violation of this Policy to a **DaVita** leader, a member of **Team Quest**, or DaVita's International Compliance Hotline.

5.3. **Teammates** (including **Contract Teammates**) and **Third Parties** (as relevant) should monitor for any indicators of potential corruption risk or situations that may raise red flags for corruption and review these with their **Local Compliance Lead** or other member of the International **Team Quest** team as appropriate. These include:

- Contract terms with vague deliverables or no description of the work that will be performed;

- Insufficiently justified requests for amended contract terms;
- Requests for fees, bonuses, and other payments tied to the success of particular transactions;
- Requests for payments to be made to a different entity than the one performing the work, or in a different country;
- Requests by a **Government Employee or Official** to use a particular **Third Party**, including a relative of the **Government Employee or Official**; or
- Invoices that do not appear genuine: e.g., backdated, duplicate, or consecutively numbered invoices or round-dollar transactions.

5.4. All **Teammates** (including **Contract Teammates**) and **Third Parties** must cooperate with any compliance inquiry, audit, investigation, or other activity related to this or other **International Compliance Policies and Procedures**, including, but not limited to, reviews of, and interviews concerning, payments to third parties, expense vouchers and reports, and sample transactions.
